

**ICHI Series Dual Stage Ferrite Circulator / Isolator** 136-138 MHz

JAG-IC-136-2-XXXX

JAG-IC-132-2-6030 Shown with 60W and 30W loads

JAG-IC-132-2-3015 Shown with 30W and 15W loads

JAG isolators and circulators offer superior performance in a compact rugged package. Careful temperature compensation and top quality components ensure high isolation with very low insertion loss over their full operating temperature range, and offer a high degree of RF and magnetic stability. Circulators are supplied without loads. Isolators come equipped with a variety of load terminations. JAG isolators and circulators are available factory-tuned in the 70, 150, 450 and 800-960 MHz frequency bands. Field tunable isolators are available for the 138-174 and 406-430 or 450-470 MHz bands.
